## Remarks

- There are no VJU lectures during this period, so students can concentrate on their works.

However, several times a month, special lectures and company visits may be held during this period. If this is the case, students will be asked to contact the company for instruction in advance.

- The preferred work location is Hanoi or the suburbs of Hanoi. It is very difficult to have students work far away from Hanoi.

- VJU cannot promise that a student will be assigned to your company. It depends on students' academic interests and master theses.
